

REMARKS

Applicant received a Notice of Non-Compliant Amendment which stated that the amendments to the claims that Applicant submitted to the Patent Office for the above referenced patent application in response to the office action dated July 14, 2004 failed to include a status identifier with each claim so that the status identifier was located immediately following the claim number. Applicant has corrected this problem by inserting the "(original)" claim identifier immediately after the claim number for claims 1, 2, and 8.

In summary, Applicant has added status identifiers showing that the claims are original to those claims in the revised claims that accompanied Applicant's response to office action of October 12, 2004 that did not already have a status identifier provided in association with the claims. Those claims for which status identifiers were added are claims 1, 2 and 8.

It is believed that this application is now in condition for allowance, and such action is earnestly solicited. The Commissioner is hereby authorized to charge any additional fees to the deposit account of the undersigned, No. 13-0470.

Respectfully submitted,
